

## Logitech® Thunderpad™ Controller for Xbox®

Dual Analog Sticks • Rubber Grips • Turbo button • Vibration Feedback • Xbox®-compatible

High-octane gaming is just a few clicks away thanks to the Logitech ThunderPad Controller. It delivers all the controls and features you expect from a 100% Xbox®-compatible gamepad... plus a Turbo/AutoFire function to help eliminate the dreaded problem of finger fatigue.

Take a standard Xbox® controller with six analog buttons, an eight-way D-pad, two triggers, a pair of analog thumbsticks, Turbo/Auto Fire, and dual vibration feedback motors. Now add a comfortable rubber grip, and Logitech quality. That's what you get from the Logitech® Thunderpad™ for the Xbox video game console from Microsoft.

With our Turbo/AutoFire function, you can fire any action button automatically without having to press the button repeatedly. The result: No more tired fingers as you fire your weapons at an impressive rate. Choose among four different pre-programmed speeds, and you'll be dominating in no time.

- Comfortable, rubber grips are perfect for long gaming sessions
- Dual vibration feedback provides ultimate realism in Xbox games
- One eight-way directional pad, two analog thumbsticks, two pressure-sensitive triggers, and six pressure-sensitive action buttons arranged in the familiar layout deliver all the control you need to dominate
- Two expansion slots for memory cards and other peripherals
- 9.5 feet (3 meters) of cable let you play throughout your room
- Official Xbox compatibility approved by Microsoft

### License to Dominate

- Comfortable design with specially textured rubber on each handle  
*Never lose your grip, even in the heat of intense gaming.*
- Experience two vibration feedback motors  
*Feel like you're part of the action.*
